

Trump KILLED IT at the State of the Union

There's little question Pelosi had her worst nightmares fulfilled. Even according to the scamming MSM, they are reporting that 76 percent of the people agreed with the speech and thought the message was awesome. If they report that, there's little question Trump hit 85+percent approval at a bare minimum.

We are going to have to see what comes of this, and if they are going to JFK him because it appears they can't handle Trump any other way. Pelosi had a nervous tick of varying intensity all the way through, it was definitely not her day.

Take a look at This patent

Nervous system manipulation by electromagnetic fields from monitors

Abstract

Physiological effects have been observed in a human subject in response to stimulation of the skin with weak electromagnetic fields that are pulsed with certain frequencies near 1/2 Hz or 2.4 Hz, such as to excite a sensory resonance. Many computer monitors and TV tubes, when displaying pulsed images, emit pulsed electromagnetic fields of sufficient amplitudes to cause such excitation. It is therefore possible to manipulate the nervous system of a subject by pulsing images displayed on a nearby computer monitor or TV set. For the latter, the image pulsing may be imbedded in the program material, or it may be overlaid by modulating a video stream, either as an RF signal or as a video signal. The image displayed on a computer monitor may be pulsed effectively by a simple computer program. For certain monitors, pulsed electromagnetic fields capable of exciting sensory resonances in nearby subjects may be generated even as the displayed images are pulsed with subliminal intensity.

My comment: This is a very long and detailed patent which spells it all out perfectly. There's no "tin foil hat" to this, they really can mess with your brain via a television screen or monitor and made it all run on Windows.

STRONG CREDIBLE RUMOR: The "concert" Ruth Bader Ginsburg attended last night was her funeral

They cut the eulogy out. Her robe is hanging off to the side of the stage along with her gavel. She may have "attended" but it was in a coffin or box. It all makes sense, watch the video of Ginsburg's funeral [HERE](#) Yes, she did "attend a concert in her honor" but she did it as a corpse.
