

## **Colloidal Silver – Mankind’s Best Natural Antibiotic**

Colloidal Silver is simply a modern version of mankind’s oldest natural antibiotic. This ages old germ killing and anti-microbial agent is the mineral silver. According to research by one of the world’s largest medical supply companies, Beiersdorf, Inc., “Silver inhibits the growth of bacteria by deactivating the bacteria’s oxygen metabolism enzymes. In turn, this destroys the bacteria’s cell membranes, stopping the replication of the bacteria’s DNA.” Silver is effective as is and doesn’t need special frequencies or names designed to deceive.

### **Colloidal Silver Kills All One-celled Organisms**

Silver also kills all other one-celled organisms/germs on contact. This includes viruses, molds, and fungus. Germs cannot live in the presence of silver, but there is no damage to multi-celled organisms. The anecdotal and eye-witness evidence passed down for thousands of years is overwhelming and indisputable. That which is experienced and witnessed in real life has always carried the most weight in a court in law. It is the fabricated and fraudulent so-called “clinical studies” that are easily manipulated by the pharmaceutical industry who pay for studies to confirm the results they desire.

### **Silver History**

From mankind’s earliest history, silver has been used in the making of food and drink vessels and eating utensils because of silver’s anti-bacterial properties. Silver coins were used to preserve milk before refrigeration was invented. Silver urns and pitchers were used to retard water spoilage by the wealthy and by armies engaging in long military campaigns. Sucking on silver utensils and silver coins has been used to gain immunity against such diseases as the Bubonic Plague. This historical use of silver has progressed to using a more refined and bio-available form of silver in much smaller particles called colloidal silver.

### **Other Uses of Colloidal Silver**

Silver is also being used in swimming pool filters, food cutting boards, bandages, and water filtration systems for NASA. Although mainstream medicine may discount the effectiveness of silver as an alternative to anti-biotics, even they use it where nothing else works, ...in burn ward dressings and ointments. True Colloidal Silver contains only mineral and distilled water and is *not* a salt, iodide, animal protein, or gelatinous based product. There are volumes of research and studies proving the effectiveness and safety of colloidal silver.

### **Dr. Carley's list for Recommended uses for Colloidal Silver...**

Once you get a generator, you will find so many uses for the silver. Here are some suggestions I give my clients::

dose = 1-2 ounces/day; increase dose if signs of infection  
can also spray on burns or wounds, or put in eyes or ears

Here are just a few ways to use colloidal silver:

- Add to drinking water when traveling or camping.
- Colloid sprayed burns heal rapidly without scarring.
- Safely sterilize anything from toothbrushes to surgical instruments.
- Use topically on cuts, wounds, abrasions, rashes, sunburn, razor nicks, bandages.
- Spray on garbage to prevent decay odors.

- Mist kitchen sponges, towels, cutting boards to eliminate E. Coli 0157:H7 and salmonella bacteria to prevent food poisoning, gastrointestinal inflammation, and genital tract infections.
- Add when canning, preserving, bottling.
- Use like peroxide on zits and acne.
- Add to juices to enhance shelf-life.
- Add to milk to delay spoiling, fermenting, deteriorating, clabbering or curdling.
- Spray in shoes, between toes, between legs to stop most skin itch, athlete's foot, fungi, jock itch.
- Diminish dandruff, psoriasis, skin rashes, etc.
- Add to bath water, gargle, douches, colon irrigation, nasal spray and dental water-pic solutions.
- Cuts downtime dramatically with colds, flu, pneumonia, staph, strep, respiratory infections and rhino viruses.
- Skin itch, eye and ear infections, some moles and warts vanish when colloid is sprayed on body after bathing.
- Use with Q-tip on fingernail, toenail, and ear fungi.
- Neutralize tooth decay and bad breath. Silver colloid stops halitosis by eliminating bacteria deep in throat and on back of tongue. Unlike pharmaceutical antibiotics, silver colloid never permits strain-resistant pathogens to evolve.
- Put a few drops on band-aids and bandages to shorten healing times.
- Health professionals might consider IV and IM injections. Tumor and polyp shrinking is reported when masses are injected directly (when colloid is added in correct proportions to sterile physiological saline or Ringer's Solution which contains ~9000 ppm sodium chloride).
- Toothaches, mouth sores, bacterial irritations are diminished.
- Soak dentures to reduce bacterial count and help prevent mouth infections.
- Spray refrigerator, freezer and food storage bin interiors.
- Stop mildew and wood rot.
- Mix in postage stamp, envelope, and tape moistening wells, paint and paste pots to prevent bacterial growth, odors, spoiling or souring.
- Add to water based paints, wallpaper paste, dishwasher, cleaning and mopping solutions, etc.
- Spray pet bedding and let dry.
- Spray on top of contents of opened jam, jelly, and condiment containers and inside lids before replacing.
- Mix a little in pet water, birdbaths, cut flower vases.
- Always add to swamp cooler water.
- Spray air conditioner filters after cleaning.
- Swab air ducts and vents to prevent breeding sites for germs.
- Use routinely in laundry final rinse water and always before packing away seasonal clothes.
- Damp clothes or towels and washcloths will not sour or mildew.
- Eliminate unwanted microorganisms in planter soils and hydroponics systems.
- Spray plant foliage to stop fungi, molds, rot, and most plant diseases.
- Treat pools, fountains, humidifiers, Jacuzzis, hot tubs, baths, dishwashers, re-circulating cooling tower water, gymnasium foot dips, and bath and shower mats.
- Spray inside shoes, watch bands and gloves and under fingernails periodically.
- Treat shower stalls, tubs, fonts, animal watering troughs, shavers to avoid trading germs.
- Rinse fruit and vegetables before storing or using.
- Put in cooking water.
- Human and animal shampoos become disinfectants.
- Prevent carpets, drapes, wallpaper from mildewing.

- Wipe telephone mouthpieces, pipe stems, headphones, hearing aids, eyeglass frames, hairbrushes, combs, loofas.
- Excellent for diapers and diaper rash.
- Spray toilet seats, bowls, tile floors, sinks, urinals, doorknobs to disinfect.
- Kill persistent odors by spraying area.
- Rinse pillowcases, sheets, towels and bedclothes.

There are literally thousands of other essential uses for this ridiculously inexpensive, odorless, tasteless, colorless, totally benign and easily produced powerful non-toxic disinfectant and healing agent. You'll find that a spray or misting bottle of silver colloid solution may be the most useful health enhancement tool in your environment.

I suggest everyone buy their own silver generator, as colloidal silver is one of the main healing supplements the FDA is targeting.

The link to the generator I use is <http://shop.silverlungs.com/?Click=12254> . This company also sells a nebulizer attachment that can be used to breathe in the silver vapor.

***Now you can produce pure-and-endless silver solutions and deliver the solution DIRECTLY into to the bloodstream by breathing the solution through the lungs. The respiratory system is THE FIRST LINE OF DEFENSE for airborne pathogens and viruses. The SilverLungs™ Generator INFUSES the respiratory system with YOUR SELF-PRODUCED nano-silver solutions and also delivers the silver nano-particles INSTANTLY into the bloodstream. With continued legislation threatening the sale of nano-silver products, you can now produce pure-and-endless colloidal silver with The SilverLungs™ Generator. Very easy-to-follow step-by-step instructions are provided making production fast and simple.*** They also sell colloidal silver soap, gel and deodorant as well.
